

GlucoSure *HT*^{Plus}

Blood Glucose Monitoring System

Autocodex

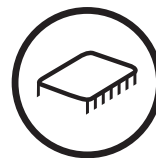

Small Blood Sample

Fast Result

Strip Ejection

Large Memory

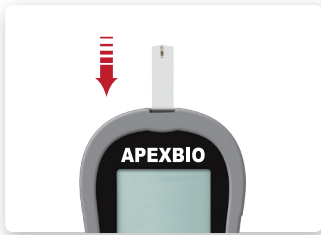

PC Link

The GlucoSure HT Plus Blood Glucose Monitoring System is one of the most versatile glucometers available on the market today. Only a tiny blood sample of 0.5 μ l is necessary for a test, it has an underfill detection feature to warn against erroneous readings caused by insufficient samples. It can effectively avoid cross-contamination by retreating a used test strip with an integrated strip ejector. 500 memories with date and time can be stored and averaged in 7, 14, 30, 60 and 90 days to better understand blood glucose management. The stored results can also be uploaded to a computer for further analysis.

APEXBIO

GlucoSure *HT^{Plus}* Blood Glucose Monitoring System

Easy To Use

1. Easy Insertion

2. For Fingertip Testing

3. Apply Sample

4. Results in 5 Seconds

5. Eject the used test strip

Specifications

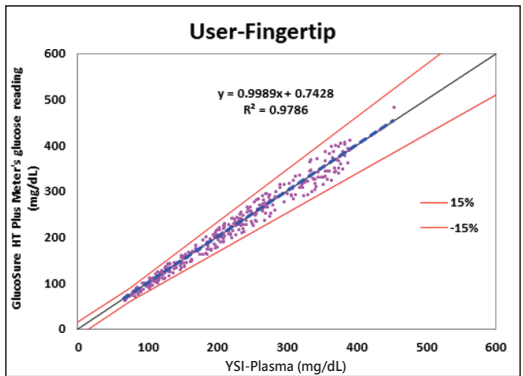

Test Range: 20~600 mg/dL (1.1~33.3 mmol/L)
Test Time: 5 Seconds
Sample Size: $\geq 0.5 \mu\text{L}$
Hematocrit Range: 10~70%
Memory: 500 Test Results
Data Transfer: PC Link
Battery: 2 x CR 2032 3V Lithium Coin Cell Batteries
Dimensions: 96L x 58W x 16H (mm)
Weight: 49g without Batteries
Operating Temperature: 5°C~45°C
Relative Humidity: 20~90%
Storage/Transport: Meter at -20°C~50°C
Condition: Test Strips at 4°C~30°C
